

Basic safety training and exam for operational employees and implementers.  
 If you pass the exam, you will receive the VCA Diploma Basic Safety, which is valid for 10 years.

Our unique training formula focuses on the concrete and relevant content of the course in balance with the focus placed on practicing for questions on the exam. Which gives a greater chance of success compared to other courses. (In DUT, ENG, TUR and other languages on request.)

To bring the employee's awareness of safety to a higher level. The safety training for operational employees is an added value and a necessity for many. Operational employees can demonstrate through a VCA Basic Diploma that they have acquired a basic knowledge of safety practises and precautions.

Content of the training:

- Legislation
- Danger, risks and accidents
- Procedures, instructions and signalling
- Hazardous substances
- Burning & explosion
- Machines & tools
- Moving loads
- Specific activities
- Working at height
- Electricity
- Ergonomics
- PPE

Each chapter focuses on exam questions.

The VCA Basic Diploma is an obligation for all operational employees within a certified VCA organization. (VCA 2017 / 6.0 question 3.2)
