

Basic safety training and exam for operational employees, implementers.
 If you pass the exam, you will receive the VCA Diploma Basic Safety, which is valid for 10 years.

Mainly this training is for participants who (after repeated attempts) fail or employees who require some **extra coaching and preparation for the exam**.

To bring the employee’s safety awareness to a higher level, the safety training for operational employees is an added value and a necessity for many. Operational employees can demonstrate through a VCA Basic Diploma that they have the required basic knowledge of safety.

Content of the training:

- Legislation
- Danger, risks and accidents
- Procedures, instructions and signalling
- Hazardous substances
- Burning & explosion
- Machines & tools
- Moving loads
- Specific activities
- Working at height
- Electricity
- Ergonomics
- PPE

Each chapter focuses on exam questions.

The VCA Basic Diploma is an obligation for all operational employees within a certified VCA organization. (VCA 2017 / 6.0 question 3.2)
